

G2 AI Engineering Hackathon

Participant Submission Guide

Step-by-step instructions for registering and submitting your project on HackerEarth

SUBMISSION FLOW

Register → Start Submission → Create Submission → Complete Mandatory Fields → Submit

Step 1 – Access the microsite & Start Submission

The screenshot shows the G2 AI Engineering Hackathon microsite. At the top, there's a banner with a colorful geometric design and the text "AI Engineering Hackathon". Below the banner, there's a section titled "G2 AI Engineering Hackathon" with a "Hosted By - G2" logo. The dates "Sep 26 - Sep 26, 2026" and time "9:00 AM - 5:00 PM - Asia/Kolkata" are displayed. There are also icons for location (Bangalore), team size (1), and registrations (52). A navigation bar includes links for Overview, Themes, Agenda, What To Submit?, and Teams. A prominent "Start submission" button is visible. A "Hackathon is live" status is shown. A "Need help?" section provides contact information for the test administrator.

+ New Submission

Step 3 – Create a New Submission

In the **Submissions** section, you will initially see **No submissions yet**.
Click **+ New Submission** to create your project submission.

Visual cue: The “+ New Submission” button is highlighted in the screenshot.

Step 4 – Fill in the Submission Form

Create submission

Submit your project for Hackathon.

Title *

Give your submission a clear, descriptive title.

Enter title

Description *

Describe your project, solution, or idea. You can use formatting and links.

< > B I " ≡ ≡ ≡ ≡ ⋮ ∨ 1 2 3 ≡ ∨ ≤ ≥ 🔗 📑 ∨

Presentation *

Upload your pitch deck or slides (.key, .odp, .odt, .pdf, .pps, .ppt, .pptx). Max 50MB.

⬆

Upload File

The **Create submission** form will open. Complete all fields marked with an * because they are mandatory.

- **Title:** Enter a clear and descriptive title for your project.
- **Description:** Describe your project, solution, or idea. Formatting and links can be used where required.
- **Presentation:** Upload your pitch deck/slides. Accepted formats: **.key, .odp, .odt, .pdf, .pps, .ppt, .pptx**. Maximum file size: **50 MB**.

Step 5 – Complete the Form & Submit

Repository URL *
Share the link to your code repository (e.g. GitHub, Bitbucket).

Source Code *
Upload your source code (e.g. zip or apk). Max 50MB.

Upload File

Instructions to Run *
Add steps to run your project so reviewers can test it.

B *I*  

Submit

Save as Draft

Cancel

Complete the remaining mandatory fields and then click **Submit**. Your submission will only be officially received after you click **Submit**.

- **Repository URL:** Add the link to your code repository, such as GitHub or Bitbucket.
- **Source Code:** Upload your source code (for example, .zip or .apk). Maximum file size: **50 MB**.
- **Instructions to Run:** Add clear steps so reviewers can run and test your project.
- **Important:** The maximum file size is **50 MB for each applicable upload field**, including the Presentation and Source Code.
- **Do not select “Save as Draft” if you intend to submit.** Click **Submit** to complete the submission.

Final check before submitting: Make sure your repository link is correct, your source code and presentation are uploaded, the run instructions are complete, and all mandatory fields have been filled.
